		Radiation Therapy Special Case Report Template	
	Topic: S	TEREOTACTIC RADIOSURGERY/RADIATION THERAP	Υ

DENTIFICATION:			
MRN:	5	Supervisor:	
ATIENT DETAILS:			
Initials:	[Date of Birth:	
RT start date:			
NK TO CURRICULUM/L	EARNING OUTCOMES:		
Include section of curriculur Learning Outcome 17.1 p.2	m document and learning outco 24	mes addressed, e.g., Radiat	ion Oncology Physics,
Curriculum Section:		Learning Outcomes:	Page Number:
Tumour Site	Histological Type	TNM	and/or Stage
Case Summary Stereotactic radiosurger	ry/radiation therapy (expand)		
Brief history Include features of history,	examination and investigations	s relating to THIS treatment	
Prognostic factors, inc	cluding pathological featur	es	
Prognostic factors, inc	cluding pathological featur	es	

MANAGEMENT PLAN:

Summary of overall management plan Include any further assessment prior to treatment, the treatment plan (including surgiandthe likely program for follow-up	ery and chemotherapy)
What is the purpose of treatment? Be specific to THIS patient e.g., cure, pain control, local control	
Rationale for Radiation Therapy	
Key management issues	
REATMENT DETAILS Treatment prescription Include positioning, beam arrangement, modality, energy, dose/fractionation schedule	е
Normal tissues/structures	
Specify dose volume constraints and how respecting these may impact on technique	
Potential acute and late toxicities of treatment and likelihood of these	

Plan appraisal– potential imp Attach isodose plot(s) and/or DRRs					ing
LECTION:					
Word count guide: 100-400					
Comments on issues learned Refer to learning outcomes for ster theLearning Portfolio			in the Curricul	lum document a	and in
